

Project Consultant Within European Grants (Horizon 2020)

Nordic Innovators is a rapidly growing Scandinavian innovation and grant consultancy. We currently have offices in Denmark (Copenhagen and Aarhus), France (Lyon), Spain (Málaga) and Norway (Bergen). The founding partners have more than 30 years of experience within innovation management and in assisting European companies and public-sector clients obtaining European or national grant funding for innovation and technology projects through high quality grant applications. We offer a wide range of services covering the entire funding journey from grant scan, proposal writing to post submission project management.

We are looking to employ experienced proposal writers with documented experience in developing Horizon 2020 proposals. You will be based in our new office in Cornellà de Llobregat (Barcelona), an office that you will help create together with two of our senior consultants.

Job description

Role

Working in close cooperation with our clients, you will undertake the proposal preparation of ground-breaking projects at both technological and market level. Other tasks associated with the grant agreement process as well as feasibility study development will also be part of your role. We provide services to diverse funding programmes primarily Horizon 2020 and Eurostars. This job opportunity will facilitate your professional growth as our clients are some of the best SMEs in Europe and globally. You will work under the guidance of our senior consultants who will help develop, train and mentor you to become part of our growing team of successful consultants. Our team consistently produce high quality funding proposals for our European client base.

Tasks will include:

- Developing market feasibility studies
- Developing business plans for project ideas
- Writing high-quality innovation and technology proposals for diverse funding programmes
- Client management to complete excellent quality service that we provide

Candidate requirements

Basic:

- Required at least 1 year of experience writing FTI, SME Instrument and/or Eurostars proposals
- High English level (written and spoken) is a requirement as most proposals are written in English and the corporate language in all our offices is English
- Being able to interact with your colleagues, being a team player and joining the existing positive working environment
- Being able to build a positive connection and communicate professionally with clients and project partners
- Knowledge of Spanish, Danish and/or Norwegian is a plus

Technical:

- PhD or master's degree in a science or engineering discipline will be an advantage, although candidates with an excellent bachelor's degree and a track record across multiple technology areas will also be considered. If it is coupled with a business degree, it is an advantage.
- Previous industry experience is a plus.
- Being able to further develop and add value to clients' innovative ideas.

What we offer

- Opportunity to join and add your knowledge to a young and fast growing successful high-performance team. At the interview, we will show how we work, what makes us different compared to other consultancies and we present our growth and funding rates
- Personal and professional growth
- Competitive salary
- Private health insurance
- Private pension scheme
- Communication package
- Relocation support
- International, friendly and inclusive multi-cultural environment (over 15 nationalities)
- Yearly Team Event
- Flexible working hours

Have we caught your interest?

Send your CV to hr@nordicinnovators.dk and summarize your experience in 5 lines. Please, do not apply if you do not possess any experience in Horizon 2020, SMEI or FTI. Any applications lacking this summary will not be considered.

NOTE: HR interviews will take place in October and the technical interviews will take place on 28 - 31 October. The final selected candidate will be expected to start on 11 November 2019.
