

## **Project Consultant with experience in soft funding programmes and research, development, and innovation projects**

Nordic Innovators is one of Europe's leading innovation consultancies within funding of research, development, and innovation (R&DI) projects. We are a trusted partner for many European companies, start-ups, research institutions, universities, and public actors. We assist our clients in counselling acquiring soft funding from Horizon Europe and national support schemes for R&DI projects.

Nordic Innovators has main offices in Denmark (Copenhagen & Aarhus), Spain (Málaga) and Norway (Bergen) as well as many satellite offices across Europe. We are 65+ employees from 22 different nationalities working within a strong interdisciplinary environment.

### **Job Description**

We are looking for a new employee with experience in writing applications for Norwegian soft funding schemes including Research Council of Norway (Innovation project in the business sector, SkatteFUNN, etc.) and Innovation Norway (Innovation contracts, Environmental technology scheme, etc.).

As Project Consultant you will be responsible for managing and further developing your own client portfolio, working closely with some of the most innovative Norwegian companies within a wide range of different industries. You will develop applications associated with their R&DI projects across multiple Norwegian soft funding schemes. You will work independently with guidance from Team Leads, Funding Programme Managers and Senior Consultants.

### **Tasks**

- Professionally manage and further develop your own client portfolio
- Understand your clients' needs and convey which funding opportunities are most suitable for their R&DI projects
- Develop applications for the Research Council of Norway associated with research projects
- Develop applications for Innovation Norway and other soft funding programmes associated with R&DI projects
- Prepare budgets and business plans for project ideas
- Contribute proactively to the development of Nordic Innovators and be a great team player for your colleagues

### **Job Requirements**

- Previous experience in writing applications for Research Council of Norway (Innovation project in the business sector, SkatteFUNN, etc.), Innovation Norway (Innovation contracts, Environmental technology scheme, etc.), and other Norwegian funding programmes.
- Fluent oral and written English skills
- Fluent oral and written Norwegian skills (preferable)
- Good understanding of industrial and academic research environments and of the business sector
- Good ability to communicate clearly, relate professionally, and establish trust with clients

- Good interaction with colleagues within a young, fast-growing, successful, and high-performing team

### **Technical background**

Higher education: A doctorate or master's degree in a business, science, or engineering discipline is an advantage. However, candidates with an excellent bachelor's degree and relevant work experience from several disciplines will also be considered.

### **What we offer**

- Exciting and challenging work tasks
- Working with the most innovative Norwegian and European companies and research organisations and be involved in their R&D&I projects
- Being part of one of the leading innovation consulting environments in Europe providing funding for R&D&I projects
- A professionally strong and multicultural work environment with great development opportunities
- Competitive salary and conditions
- Health and pension insurance

Kindly send your application no later than 15 January 2022 to: [jw@nordicinnovators.dk](mailto:jw@nordicinnovators.dk). Interviews start at the end of January.

Preferable start: March 2022.

For questions about the position, please contact Julie Wedell-Wedellsborg, Head of people development and culture at [jw@nordicinnovators.dk](mailto:jw@nordicinnovators.dk), +45 26 79 71 22.
